Reissue Applications

1. Claims 45-53 are rejected under 35 U.S.C. 251 as being broadened in a reissue application filed outside the two year statutory period. The present process claims 45-53 broaden the invention because present process claims 45-53 have the word "comprising" in its preamble, this word allows an additional step of further turning the circular contour portion into a square contour portion resulting an invention that has a square contour portion and if practiced would not have infringed the original patent claims since the invention of original claim patent has a circular contour portion. A claim is broader in scope than the original claims if it contains within its scope any conceivable product or process which would not have infringed the original patent. A claim is broadened if it is broader in any one respect even though it may be narrower in other respects.
